

Professional Summary

Results-driven Machine Learning Ops Engineer with a proven track record in designing, implementing, and optimizing end-to-end machine learning pipelines. Experienced in deploying and managing machine learning models in production, ensuring scalability, reliability, and seamless integration. Proficient in DevOps practices, CI/CD workflows, and cloud technologies.

Skills & Technologies

Machine Learning, Data Analysis, Data Cleaning, Pandas, Numpy, Seaborn, Visualization, Python, SQL, Flask, Power BI, Excel, Microsoft Azure, AWS, Kafka, Spark, Snowflak, Git/Github, Terraform

Work Experience

Data Science Tutor: Tethral Technologies LTD.

Sept 2023 – Till Date

- Training students on how to use python for Data Science and Analysis and build models
- Facilitate Data science events

Data Scientist: Freelance

June 2020 – Till Date

- Built over 8 dashboard for insights and recommendation
- Analyzed over 10 project with python, Pandas, numpy, and cufflinks
- Built over 5 models for prediction on Machine learning
- Managed Infrastructures on Azure and Aws with Terraform
- CI/CD integration using Jenkins and Github Actions

Education

BSc. Mathematics (Major): University of Lagos – **4.0/5.0**

Oct. 2017 – July 2023

Diploma: WorldQuant University: Python & Machine Learning *Honours*

Sept. 2019 – Sept. 2021

Projects & Publications

- Compressive strength prediction: Built and deployed a model that predicts the compressive strength of concretes. **Tools:** Python, Excel, Tableau, Flask, Html. <https://regressionprediction-hhvalcbstu2nfxnu5umj6p.streamlit.app/>
- A report is to curate an analytically-backed, dance-themed playlist for a company's summer party. I used data analysis and a machine learning model to select the top 50 songs with the highest predicted danceability scores. <https://app.datacamp.com/workspace/w/f64ee4e5-9b69-4b4d-8009-d6f4b076a7af>

Professional Certification

- Azure Fundamental, Microsoft.
