Address: Yaounde, Cameroon

### Professional Summary

Innovative radio planning and ML engineer with 01 year of experience in application, design, development, testing and deployment. Highly experienced in writing codes and algorithms as well as building complex neural network through various programming languages, possess passion for ML with comprehensive knowledge of ML concepts and other related techniques

### Skills

#### Technical Skills

*CNN fundamentals, transfer learning, auto encoders, object detection, object segmentation, Deep learning essentials, Data pre-processing and cleaning, feature engineering and selection, data visualization, Model development workflow, Model training, testing, validation, EDA, AutoGloun framework, SageMaker studio, AutoML, Lambda and step function workflow*

#### Soft Skills

Diligence, independent, confidence, dynamic, Leadership

#### Software Tools

Pytorch, Tensorflow, power BI, Excel Python, LTE sim, Matlab, AWS, Google Cloud

### Work Experience

Machine learning intern-Osmium Solution. Yaounde, Cameroon-July 2023 – December 2023

- Designed and implement data pre-processing pipeline to clean and transform raw data, improving the quality and reliability of inputs data for ML models
- Designed and developed a ML application for fraud detection, reducing fraudulent transactions by 20%.

Part time teacher – SUPP'TIC - Yaounde-Cameroon - October 2022- present

- lecturer in CDMA Drive Test and Optimization, wireless network
- supervisor for 10 students during their final project

Radio planning and optimization Engineer- LKM data consulting – Yaounde-Cameroon - October 2018 - September 2021

- KPI analysis and configuration in 03 regions in Cameroon to reduce Call drop, and TCH Congestion up to 30%
- Realized 10 Drive test for performances analysis of the network in 5 cities in Cameroon

### Education

Telecommunication Engineering – SUPP'TIC - Yaounde – December 2014 – January 2017

- Mobile network.

Master Degree- University of Yaounde 1- Yaounde- September 2006

- Physics

### Certifications

Machine learning fundamental nanodegree– UDACITY - May 2023 – December 2023

Machine learning specialization- COURSERA- June 2022 – December 2022
